Thank you for purchasing our item. If you have any questions that are beyond the scope of this help file, please feel free to email via my user page contact form [here](#).
Thanks so much!

Table of Contents

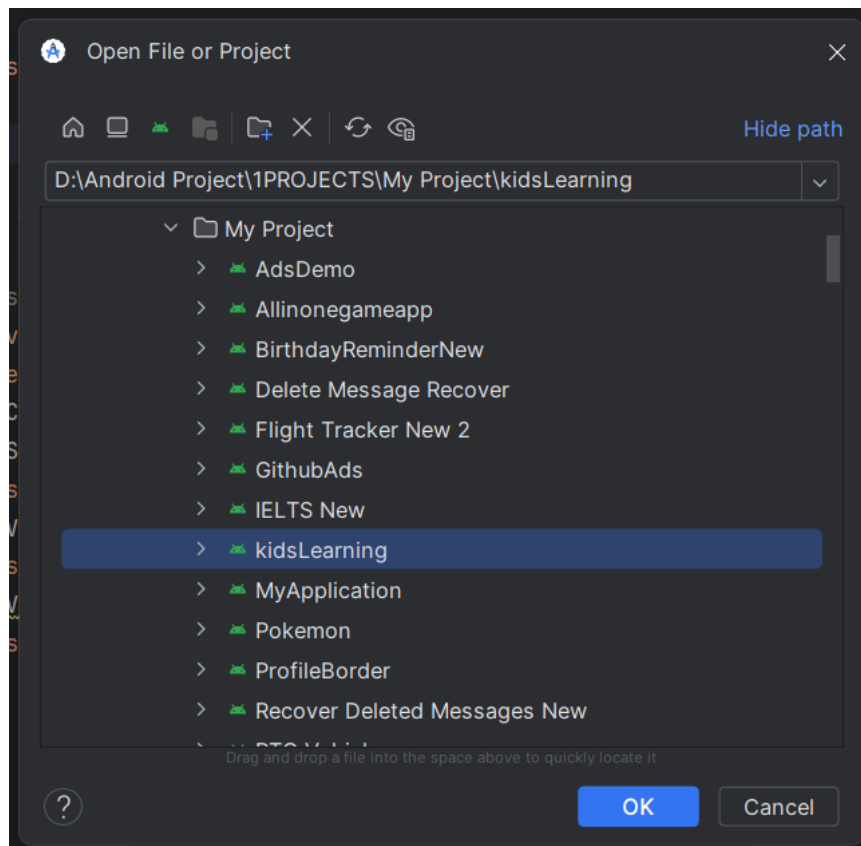

1. Import Project In Android Studio.
 2. Change The Package Name.
 3. Change The App Name.
 4. Change The App Icon.
 5. Add Admob Id.
-

A) Import project in Android Studio

- Open Android Studio Projects pen Existing Project.

Select your Project File (Source code)

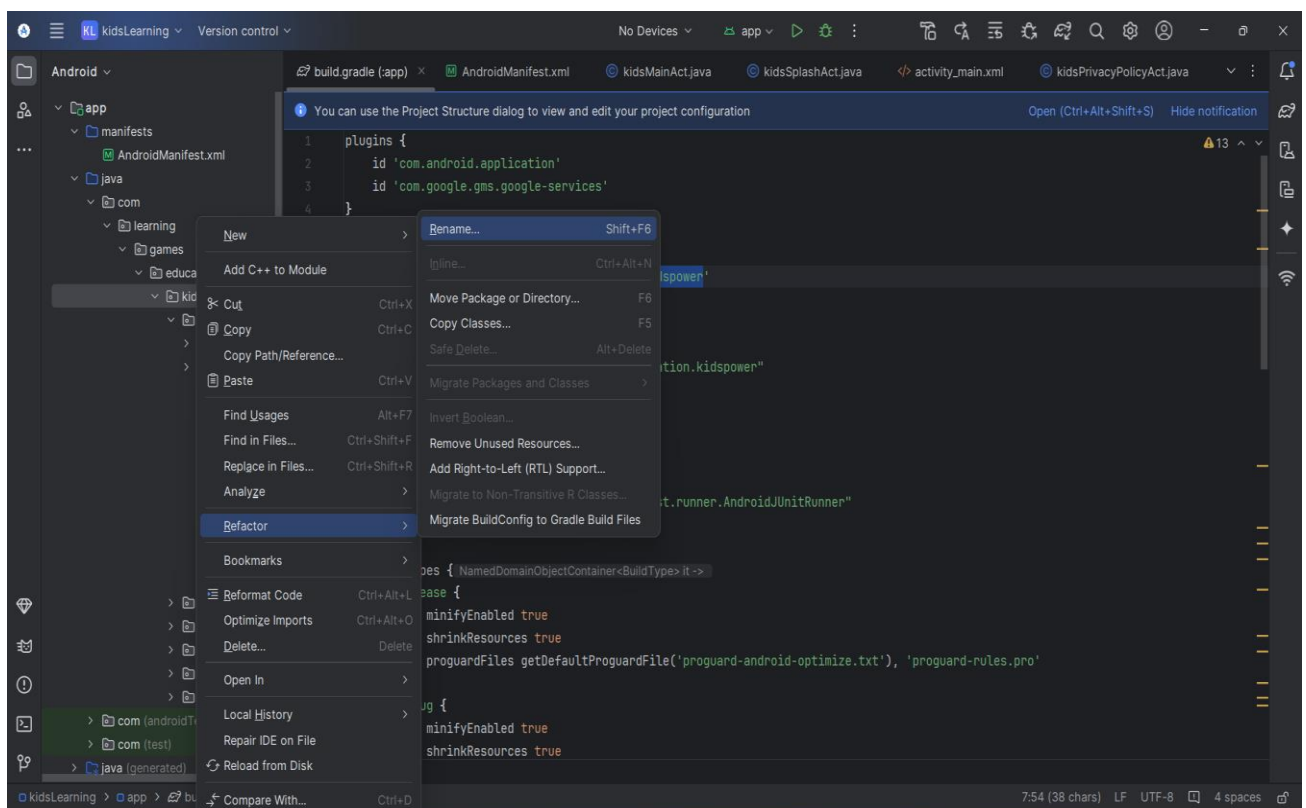

B) Change package name

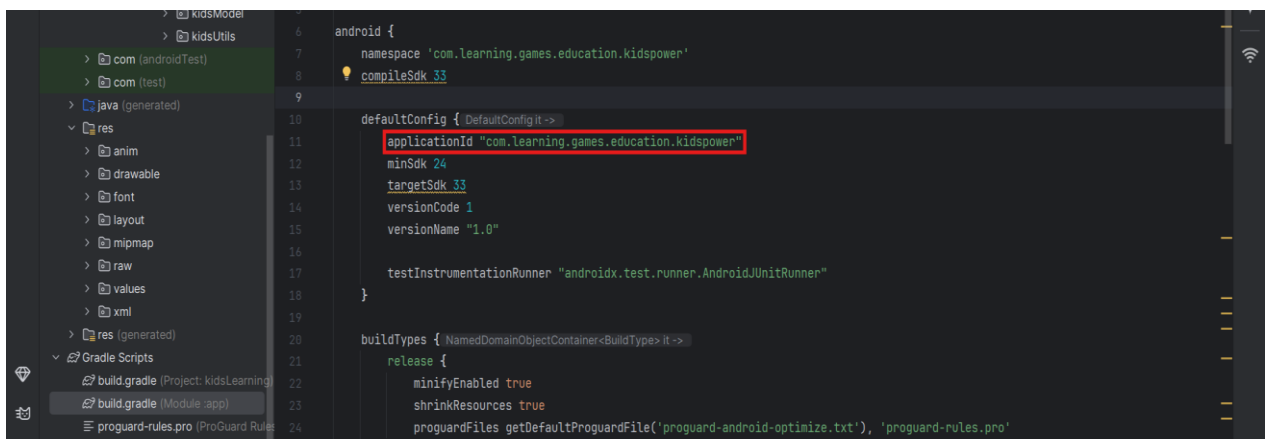

For example, if you want to change **com.learning.games.education.kidspower** to **[com.learning.games.kidslearning]** then:

1. In your Project panel, click on the little gear icon.
2. Uncheck / De-select the Compact Empty Middle Packages option
3. Your package directory will now be broken up in individual directories
4. Individually select each directory you want to rename, and:
 - Right-click it
 - Select Refactor

- Click on **Rename**
- In the Pop-up dialog, click on **Rename Package** instead of **Rename Directory**
- Enter the new name and hit **Refactor**
- Click **Do Refactor** in the bottom
- Allow a minute to let Android Studio update all changes
- **Note:** When renaming com in Android Studio, it might give a warning. In such case, select **Rename All**

1. Now open your **Gradle Build File** (build.gradle - Usually app or mobile). Update the application Id in the default Config to your new Package Name and Sync Gradle, if it hasn't already been updated automatically:

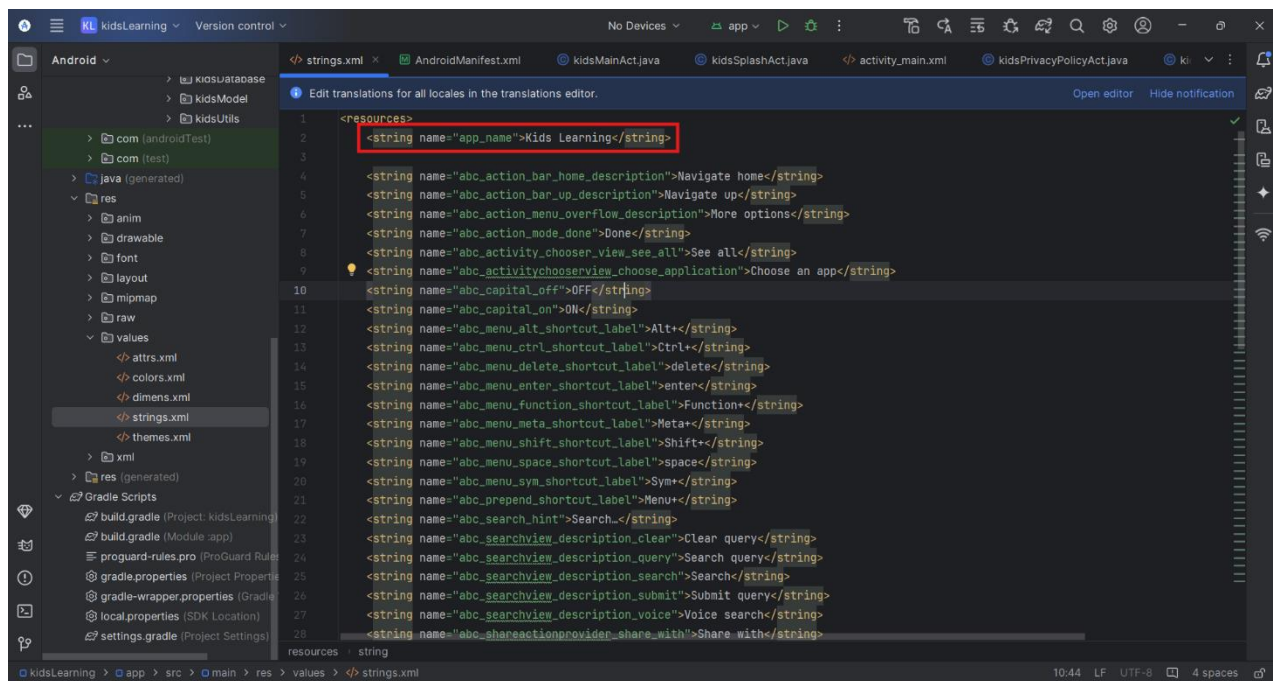

1. You may need to change the package= attribute in your manifest.
2. Clean and Rebuild.

C) Change app Name

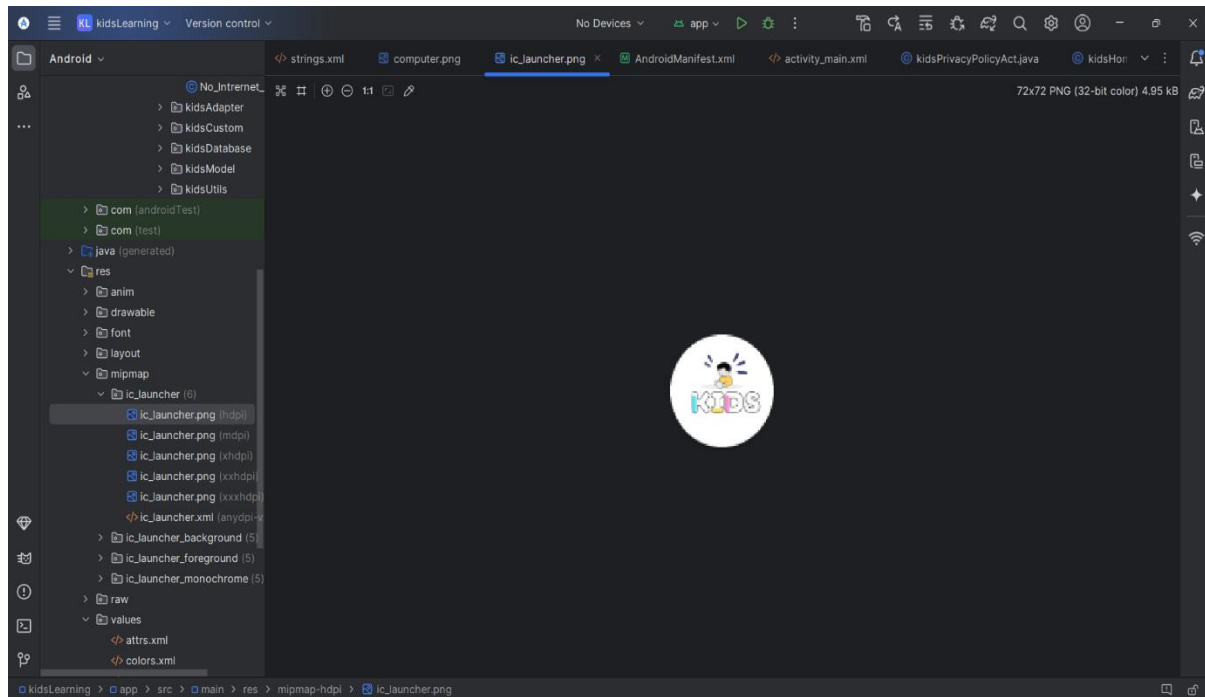

For Change App Name Go > app > res > value > string.xml

```
<string name="app_name">YOUR APP NAME</string>
```

D) Change app icon

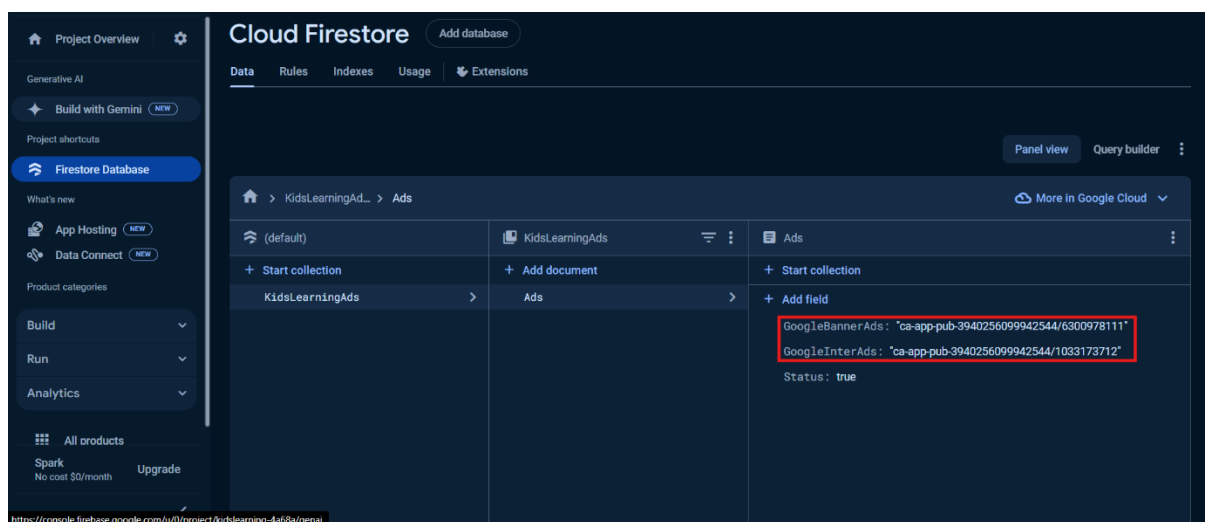

- For Change App Icon Go > app > res > mipmap > applogo
- <https://icon.kitchen/>
- Use above link for generate app logo for all variant.
- Then paste in mipmap folder.

E) Change Admob Ads I'd

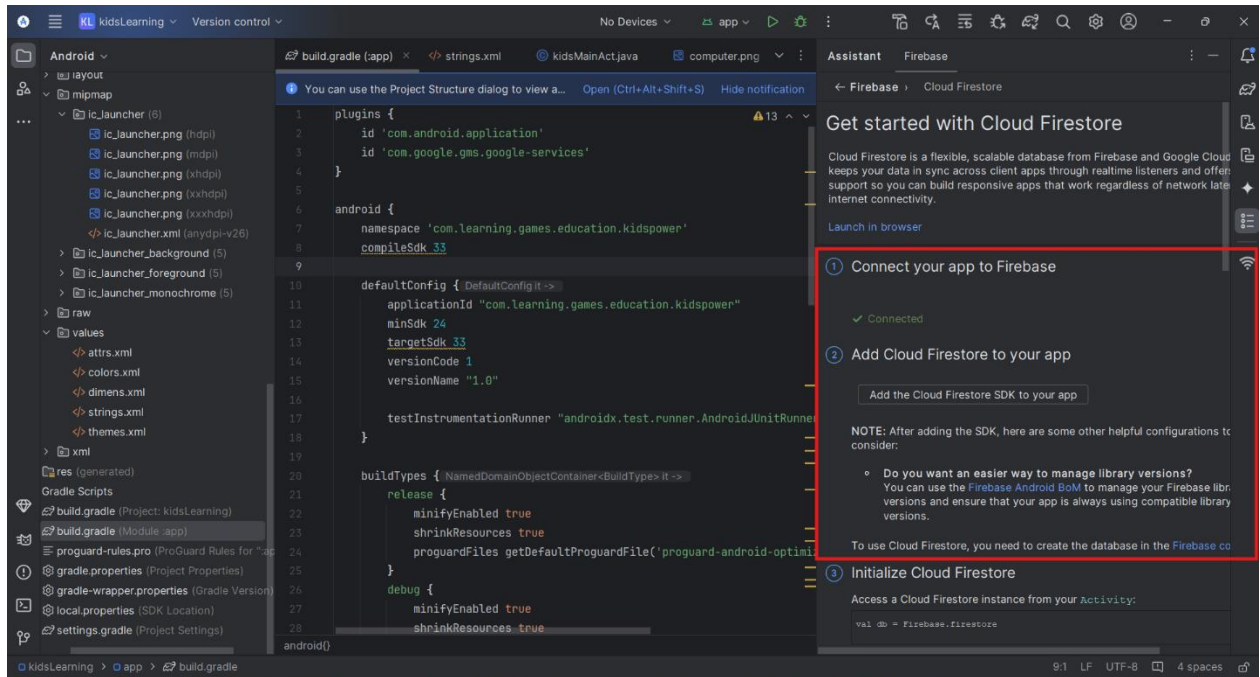

->First Goto firebase.

->Select Firestore database and show below image for reference.

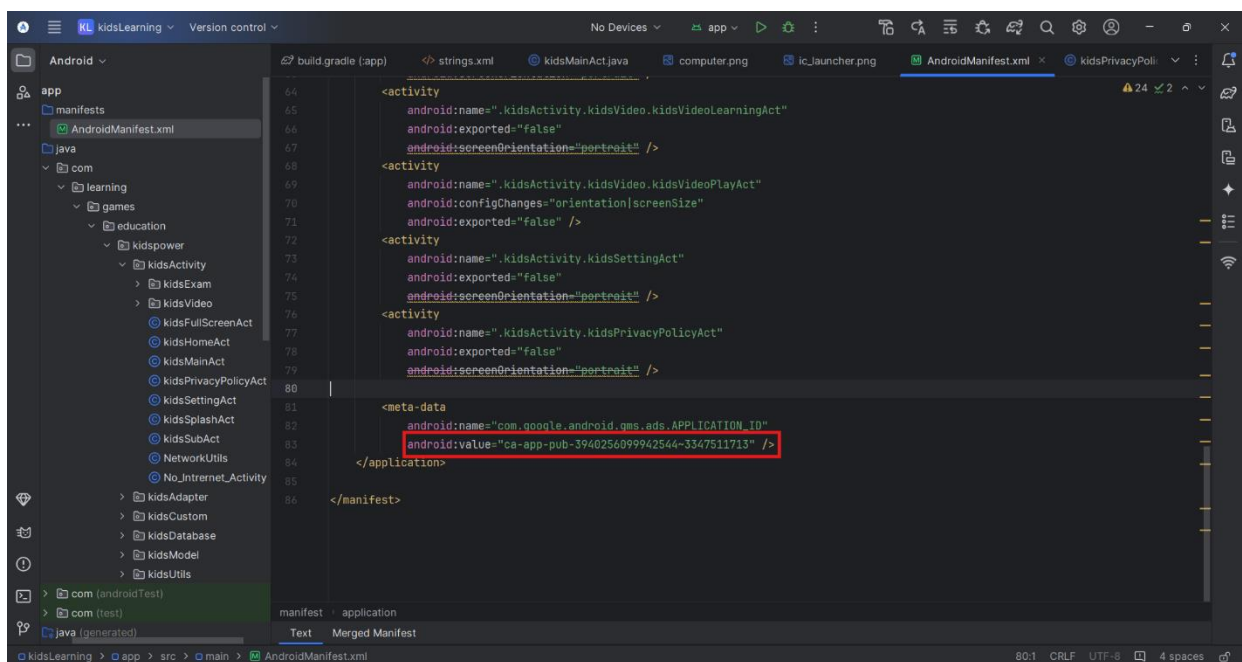

->In red box have banner and Interads id so replace it original ads id.

->Then after connect firebase with android studio show below image for reference.

-> Replace the app ID with the original AdMob app ID.

and If You are getting issue in Ads Setup & Test Ads Issue. Please contact here: tfortejas5181@gmail.com
